## Winning At Work & Home

For most men happiness and satisfaction in life are locked up in two words—*work* and *home*. Together these two words capture the worlds that make up the bulls-eye of a man's life. These arenas absorb most of a man's time, talent, energy, effort and creativity. Most importantly, no man can afford success in only one of these critical areas. The good life demands that he win in both.

For the next 11 weeks we want to help you elevate your game at home and in the workplace. We want to help you build (or rebuild) your confidence; expand your vision; develop successful life strategies; and improve your performance in your relationship with your wife or girlfriend, in your relationships with your children, and in your job!
